

Anodizing Plating CNC precision machining parts Customized

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Drawing Format: PDF, DWG, IGS, STEP, Etc.
- Size: Customized
- Tolerance: $\pm 0.01\text{mm}$
- Lead Time: 7-15 Days
- Delivery Method: DHL, FedEx, UPS, Etc.
- Packaging: Standard Export Carton Or Customized
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- MOQ: 1 Piece
- Highlight: **Plating CNC Precision Machining Parts,**
Anodizing CNC Precision Machining Parts

Product Description

Product Description:

CNC Machined Parts are precision manufactured parts manufactured with the highest level of accuracy and precision. Our CNC machined parts are available in a variety of materials, sizes and tolerances to meet the specific requirements of your application. Our CNC machining services include CNC turning, CNC milling, and CNC grinding to produce high quality components with repeatable accuracy and tight tolerances of up to $\pm 0.01\text{mm}$. Our CNC machined parts are extensively used in automotive, aerospace, medical and many other industries where precision and reliability are of the utmost importance. We offer customized CNC machined parts with no minimum order quantity and fast delivery with DHL, FedEx, UPS, and other reliable carriers.

Features:

Product Name: CNC Machined Parts
Packaging: Standard Export Carton Or Customized
Application: Automotive, Aerospace, Medical, Etc.
Lead Time: 7-15 Days
Delivery Method: DHL, FedEx, UPS, Etc.
Surface Treatment: Anodizing, Plating, Painting, Etc.
Specialty: CNC Turning Machine Parts, CNC Turning Parts, CNC Parts

Technical Parameters:

Technical Parameter	Value
MOQ	1 Piece
Application	Automotive, Aerospace, Medical, Etc.
Tolerance	$\pm 0.01\text{mm}$
Drawing Format	PDF, DWG, IGS, STEP, Etc.
Packaging	Standard Export Carton Or Customized
OEM/ODM	Acceptable
Size	Customized
Material	Aluminum, Steel, Brass, Etc.
Lead Time	7-15 Days
Delivery Method	DHL, FedEx, UPS, Etc.
Product Features	Custom CNC Parts, CNC Precision Parts, CNC Machining Plastic Parts

Applications:

CNC Machined Parts are widely used in many applications and industries, such as automotive, aerospace, medical, electrical and electronic, furniture, and many others. The parts are machined precisely and accurately with a high degree of tolerance. They are also available in various materials, such as aluminum, stainless steel, brass, plastic, and more. The parts are machined with CNC machining, turning, milling, and other methods to ensure a perfect fit and finish. The delivery options include DHL, FedEx, UPS, and others. The surface treatment can be anodizing, plating, painting, and more. The minimum order quantity is 1 piece. The parts are custom-made with precise and accurate measurements, and the tolerance is $\pm 0.01\text{mm}$.

Support and Services:

CNC Machined Parts Technical Support and Service

At [Your Company], we offer comprehensive technical support and service for our CNC machined parts. Our team of experienced engineers and machinists will work with you to ensure that your parts are machined to the highest standards and delivered on time. Technical Support

Our team provides technical support for CNC machined parts throughout the design and production process. We help you choose the right materials and design specifications for your parts, and we'll provide advice and guidance on machining techniques and processes. We'll also provide troubleshooting assistance if any issues arise during production.

Service

In addition to technical support, we also offer full service for CNC machined parts. We can handle the entire process, from design to delivery, and ensure that your parts are machined with the highest accuracy and quality. We also offer post-production services, such as packaging and shipping, to help you get your parts to their destination quickly and safely.

Packing and Shipping:

Packaging and Shipping for CNC Machined Parts

CNC machined parts are typically packaged in protective packaging such as bubble wrap, corrugated boxes, or custom-made boxes and crates. The packaging must be strong enough to protect the parts during transit and handling.

Shipping options typically include ground, air, and sea. Ground shipping is the most cost-effective option and is the preferred method for most small orders. Air and sea shipping are more expensive, but they are the best option for larger orders and international orders.

In order to ensure the safety of the parts, all shipments are insured. If any parts are damaged during transit, the customer will be reimbursed for the cost of the parts.
