

CNC Injection Molding Services $\pm 0.05\text{mm}$ Tolerance

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Lead Time: 3-4 Weeks
- Cavity: Single Or Multi-Cavity
- Tolerance: $\pm 0.05\text{mm}$
- Service Type: Injection Molding Services
- Material: ABS, PC, PP, PA, POM, Etc.
- Size: Max. Mold Size: 1500 X 1200mm
- Mold Base: LKM, HASCO, DME, Etc.
- Highlight: **CNC Injection Molding Services ,
EDM Injection Molding Services**

Product Description

Product Description:

Injection Molding Services provide plastic injection molding, a process where molten plastic material is injected into a mold to create parts and components. This process is used to produce parts and components in a range of sizes and shapes, and is suitable for low- to high-volume production. Injection Molding Services also offer overmolding and insert molding to further enhance the capabilities of injection molding. Our lead time is 3-4 weeks and the mold life is up to 500,000-1,000,000 shots. We provide single and multi-cavity molds, and our software is compatible with UG, Pro/E, SolidWorks, and other programs. We specialize in plastic injection molding, molding plastic injection, molding process injection, overmolding injection, and insert molding injection, and our quality and efficiency have earned us a great reputation in the industry.

Features:

Product Name: Injection Molding Services
Mold Base: LKM, HASCO, DME, Etc.
Process: Injection Molding, Overmolding, Insert Molding, Etc.
Equipment: CNC, EDM, Wire-Cutting, Etc.
Software: UG, Pro/E, SolidWorks, Etc.
Size: Max. Mold Size: 1500 X 1200mm
Molding Process: Injection Molding
Molding Process: Plastic Molding Injection
Molding Process: Molding Process Injection

Technical Parameters:

Parameter	Description
Tolerance	±0.05mm
Size	Max. Mold Size: 1500 X 1200mm
Software	UG, Pro/E, SolidWorks, Etc.
Weight	Max. Mold Weight: 10,000kg
Material	ABS, PC, PP, PA, POM, Etc.
Equipment	CNC, EDM, Wire-Cutting, Etc.
Lead Time	3-4 Weeks
Mold Base	LKM, HASCO, DME, Etc.
Surface Finish	Polishing, Texturing, Painting, Etc.
Cavity	Single Or Multi-Cavity

Applications:

Ywy's Injection Molding Services is a comprehensive solution for customers who are looking for high-quality plastic injection molding. Our services include a variety of processes such as Injection Molding, Overmolding, Insert Molding, and more. We are using the latest technology and software like UG, Pro/E, SolidWorks, etc. to ensure the highest quality in our products. Our mold base includes LKM, HASCO, DME, etc. with a variety of surface finish options like polishing, texturing, painting, etc.

Our Injection Molding Services are ideal for various industries such as automotive, consumer goods, electronics, and more. We have a wide range of plastic materials that can be used in the production process including ABS, PLA, PP, PA, PBT, PC, and more. We provide a fast and reliable service with the highest quality of molding plastic injection.

We are dedicated to providing the best customer service and the highest quality of injection molding services. Our experienced team is always available to answer any questions you may have and provide professional advice. We guarantee all products meet the highest standards of quality and are backed by our brand name, ywy. The model number is ywy333 and we are proud to be made in Guangdonghuizhou.

Customization:

Injection Molding Services
Brand Name: ywy
Model Number: ywy333
Place of Origin: guangdonghuizhou
Weight: Max. Mold Weight: 10,000kg

Process: Injection Molding, Overmolding, Insert Molding, Etc.

Material: ABS, PC, PP, PA, POM, Etc.

Equipment: CNC, EDM, Wire-Cutting, Etc.

Cavity: Single Or Multi-Cavity

We provide Molding Plastic Injection, Injection Molding Process, Plastic Injection Molding Equipment services with our brand name ywy and model number ywy333. Our injection molding services include molding process such as injection molding, overmolding, insert molding. The materials include ABS, PC, PP, PA, POM, etc. We have advanced equipments such as CNC, EDM, wire-cutting, etc. The maximum weight of the mold is 10,000kg. The cavity can be single or multi.

Support and Services:

Injection Molding Services offers comprehensive technical support and services, including design and engineering assistance, prototyping, tooling, and production of thermoplastic components. Our experienced engineers are available to assist you with your project from concept to completion, providing the highest level of service and quality. We offer a wide range of services, such as:

Design and Engineering Assistance – We can help you develop and refine product designs, select materials, and optimize production processes.

Prototyping – We offer rapid prototyping services to quickly produce high-quality parts for testing and evaluation.

Tooling – We can design and build molds for injection molding of thermoplastic components.

Production – We specialize in the production of high-quality, precision thermoplastic parts.

Our commitment to quality and service ensures that our customers receive the best possible injection molding services and products.

Contact us today to learn more about our injection molding services and how we can help with your next project.
