

Wire Cutting Insert Molding Services $\pm 0.05\text{mm}$ Tolerance

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Software: UG, Pro/E, SolidWorks, Etc.
- Material: ABS, PC, PP, PA, POM, Etc.
- Cavity: Single Or Multi-Cavity
- Service Type: Injection Molding Services
- Equipment: CNC, EDM, Wire-Cutting, Etc.
- Mold Base: LKM, HASCO, DME, Etc.
- Mold Life: 500,000-1,000,000 Shots
- Process: Injection Molding, Overmolding, Insert Molding, Etc.
- Highlight: **Wire Cutting Insert Molding Services, EDM Insert Molding Services**

Product Description

Product Description:

Injection Molding Services is a process of molding plastic that involves injecting molten material into a mold cavity. Our services include molding plastic injection, plastic injection molding, and injection plastic molding. We have the ability to handle various types of materials such as ABS, PC, PP, PA, POM, etc. We use advanced software such as UG, Pro/E, SolidWorks, etc. to design the mold with single or multi-cavity. We also offer various surface finishes such as polishing, texturing, painting, etc. As a result of our expertise in this field, we can provide excellent quality injection molding services to our customers.

Features:

Injection Molding Service: Plastic Injection Molding

Mold Life: 500,000-1,000,000 Shots

Service Type: Injection Molding Services

Material: ABS, PC, PP, PA, POM, Etc.

Lead Time: 3-4 Weeks

Software: UG, Pro/E, SolidWorks, Etc.

Technical Parameters:

Mold Base	LKM, HASCO, DME, Etc.
Cavity	Single Or Multi-Cavity
Surface Finish	Polishing, Texturing, Painting, Etc.
Service Type	Injection Molding Services
Lead Time	3-4 Weeks
Size	Max. Mold Size: 1500 X 1200mm
Equipment	CNC, EDM, Wire-Cutting, Etc.
Mold Life	500,000-1,000,000 Shots
Material	ABS, PC, PP, PA, POM, Etc.
Software	UG, Pro/E, SolidWorks, Etc.

Applications:

YWY Injection Molding Services

YWY injection molding services provide a complete solution for businesses needing injection molding for their products. Our services include process injection molding, injection service molding, and injection service molding services. With our high quality brand name, YWY, model number YWY333, and place of origin GuangdongHuizhou, our mold life is guaranteed to be between 500,000-1,000,000 shots. Our maximum mold size is 1500 x 1200mm, with a lead time of only 3-4 weeks. We offer single or multi-cavity molding, with mold base options of LKM, HASCO, DME, and more. With our injection molding services, you can be sure to get the product you need with a fast turnaround time.

Customization:

We offer custom Injection Molding Services with brand name **ywy** and model number **ywy333**. Our services are available in **Guangdong** and **Huizhou**. We use the latest CNC, EDM, Wire-Cutting, etc. machines and software including UG, Pro/E, SolidWorks, etc. for maximum efficiency. Our molds have maximum size of **1500 X 1200mm** and maximum weight of **10,000kg**. We offer a wide range of processes including Injection Molding, Overmolding, Insert Molding, etc. We specialize in **Injection Molding Process**, **Plastic Injection Molding** and **Process Injection Molding**.

Support and Services:

Injection Molding Services Technical Support and Service

On-site technical support for all injection molding products

Remote technical support for all injection molding products

Product and process troubleshooting

Maintenance and repair services

Software and hardware upgrades
Installation and setup of injection molding systems
Training courses for injection molding products
Documentation services for injection molding products
Consulting services for injection molding applications
