

Industrial CNC Titanium Parts $\pm 0.01\text{mm}$ Tolerance Annealing Normalizing

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Size: Customized
- Application: Industrial, Medical, Aerospace, Etc.
- Processing Method: CNC Machining
- Inspection: 100% Inspection
- Material: Titanium
- Tolerance: $\pm 0.01\text{mm}$
- Surface Treatment: Polishing
- Service: OEM/ODM
- Highlight: **Annealing CNC Titanium Parts, Normalizing CNC Titanium Parts**

Product Description

Product Description:

CNC Titanium Machining Components are produced by CNC Machining titanium components with precise size and tolerance requirements. The surface treatment of the titanium components is polished to meet the highest standards. And the tolerance can be controlled up to $\pm 0.01\text{mm}$, ensuring the accuracy of the machined titanium parts. The CNC machined titanium parts are manufactured with the highest quality standards and inspected thoroughly to guarantee 100% satisfaction. With a wide range of custom sizes, CNC Titanium Components can be used in various industries and applications.

Technical Parameters:

Parameter	Details
Processing Method	CNC Machining
Payment Term	T/T, Paypal, Western Union
Packaging	Carton/Wooden Case
Surface Treatment	Polishing
Drawing Format	PDF/DWG/IGS/STP/X_T
Size	Customized
MOQ	1 Piece
Tolerance	$\pm 0.01\text{mm}$
Material	Titanium
Application	Industrial, Medical, Aerospace, Etc.

Applications:

Ywy CNC titanium parts are precision machined from titanium materials and are widely used in many different fields. With its high strength and low weight, titanium is an ideal material for many applications, such as aerospace, marine, medical and industrial. CNC titanium parts can be machined to exact specifications with extremely high precision and accuracy. Ywy CNC titanium parts are available in various sizes, shapes, and configurations, and are perfect for custom designed applications. Our CNC machined titanium parts are produced with excellent surface finish, tight tolerances and high-quality heat treatment. We also provide various surface treatments to meet your specific requirements. Our custom CNC machined titanium parts are ideal for applications requiring high strength, corrosion resistance, and lightweight properties.

Ywy CNC titanium machining parts are precision machined from titanium alloy materials and can be used for a wide range of applications, such as aerospace, medical, industrial, and marine. We can offer various sizes, shapes, and configurations with excellent surface finish and tight tolerances. Our CNC machined titanium parts are designed and manufactured according to customers' specific requirements. We also provide various surface treatments, such as polishing and annealing/normalizing. All of our CNC machined titanium machining parts are produced with superior craftsmanship and can meet the most demanding requirements.

Ywy titanium machined components are machined from titanium alloy materials with excellent surface finish and tight tolerances. We can provide custom designed parts to meet your specific requirements. Our titanium machined components are perfect for applications requiring high strength and corrosion resistance. We also offer various surface treatments such as polishing and annealing/normalizing. All our titanium machined components are produced with superior craftsmanship and can meet the most demanding requirements.

Customization:

We provide **CNC Titanium Machining Components, CNC Titanium Machining Parts, Titanium Parts Machining**. Our brand name is YWY and this product model is CNC505. The place of origin is Guangdong Huizhou. We can provide high precision machining with tolerance $\pm 0.01\text{mm}$. The minimum order quantity is 1 piece and we can also provide customized size. We provide heat treatment like annealing and normalizing. We also provide OEM/ODM service.

Support and Services:

We offer technical support and services for CNC Titanium Parts. Our team of knowledgeable technicians is available to help troubleshoot any issues you may have with your CNC titanium parts. We can provide advice on installation, maintenance, and upgrades. We are also available to provide custom fabrication and machining services to meet your exact specifications.

For more information or to request technical assistance, please contact us at [email address].

Packing and Shipping:

Packaging and Shipping of CNC Titanium Parts

We use high quality packing materials to securely pack CNC Titanium Parts to ensure it is protected during transit. The parts are then shipped in a sturdy box for added protection.

We use reliable couriers and freight carriers to deliver the parts to you in a timely manner. We track shipments to make sure they reach their destination safely and on time.
