

Custom Metal CNC Parts with Anodized Finish OEM/ODM Available

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

Product Specification

- Material: Aluminum, Steel, Brass, Etc.
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- OEM/ODM: Acceptable
- Lead Time: 7-15 Days
- Delivery Method: DHL, FedEx, UPS, Etc.
- Application: Automotive, Aerospace, Medical, Etc.
- MOQ: 1 Piece
- Tolerance: $\pm 0.01\text{mm}$
- Highlight: **ODM Custom Metal CNC Parts,**
OEM Custom Metal CNC Parts,
Anodized Finish Custom Metal CNC Parts

Product Description

Product Description:

We offer a range of surface treatments, including anodizing, plating, painting, and more. This ensures that our clients receive a product that is not only functional but also visually appealing.

Our packaging options include standard export cartons or can be customized to meet the specific needs of our clients. This ensures that our CNC machined parts are protected during transit and arrive at their destination undamaged.

Quality control is a top priority for us. We conduct a thorough 100% inspection of all our CNC machined parts before shipment to ensure that our clients receive a product that meets their exact specifications.

Our CNC machined parts come in various sizes and can be customized to meet the specific needs of our clients. This ensures that our clients receive a product that is tailored to their specific requirements.

We use reliable delivery methods such as DHL, FedEx, UPS, and more to ensure that our clients receive their CNC machined parts in a timely and efficient manner.

Features:

Product Name: CNC Machined Parts

Quality Control: 100% Inspection Before Shipment

Application: Automotive, Aerospace, Medical, Etc.

Material: Aluminum, Steel, Brass, Etc.

Size: Customized

OEM/ODM: Acceptable

Computerized machining parts

Computerized Numerical Cutting parts

CNC-machined components

Technical Parameters:

Product Attribute	Value
Product Name	Computer-aided manufacturing parts
Lead Time	7-15 Days
Tolerance	±0.01mm
Quality Control	100% Inspection Before Shipment
Material	Aluminum, Steel, Brass, Etc.
Delivery Method	DHL, FedEx, UPS, Etc.
Packaging	Standard Export Carton Or Customized
MOQ	1 Piece
Drawing Format	PDF, DWG, IGS, STEP, Etc.
Processing Method	CNC Machining, Turning, Milling, Etc.
OEM/ODM	Acceptable

Applications:

Our yuanwenyu brand offers high-quality CNC machined parts that are perfect for various industries such as automotive, aerospace, medical, and more. Our products are made from top-quality materials such as aluminum, steel, brass, and other high-strength alloys. We offer both OEM and ODM services to cater to the specific needs of our clients.

Our numerically-controlled machining parts are manufactured using the latest computer-controlled machining technology, resulting in precise and accurate finished products. The tolerances of our products are within ±0.01mm, ensuring that they meet the highest standards of quality and performance.

Our computer-aided machining parts are widely used in the automotive industry, such as engine components, transmission parts, and suspension systems. They are also suitable for aerospace applications, such as aircraft components, landing gear, and engine parts. Our medical components, on the other hand, are used for surgical instruments, implants, and prosthetics.

Our CNC machined parts are packed using EPE foam, anti-rust paper, stretch film, plastic bags, and cartons, ensuring that they arrive at their destination in perfect condition. We offer both standard export cartons and customized packaging options to meet the specific requirements of our clients.

We have a minimum order quantity of 50 pieces, and our prices range from \$2.35 to \$12.68 per piece. We accept various payment terms and provide a fast delivery time of only one week. Our supply ability is up to 1000000 pieces per month, ensuring that we can meet the demands of our clients.

Our CNC machined parts are certified for quality and performance, ensuring that our clients receive only the best products. Choose our yuanwenyu brand for your computer-controlled machining parts needs, and we guarantee that you will be satisfied with our products and services.

Customization:

Our brand, **yuanwenyu**, offers a variety of CNC machined parts that are customizable to meet your specific needs. Our model numbers include 1X893 and OEM, and they are made in Guangdong, China using computer-numerically-controlled (CNC) technology. We take pride in providing precision machined parts that meet industry standards and have received certification.

The minimum order quantity for our CNC machined parts is 50 pieces, and the price ranges from \$2.35 to \$12.68 per piece. To ensure safe delivery, our packaging includes EPE foam, anti-rust paper, stretch film, and plastic bags, all placed in a carton. We use reliable delivery methods such as DHL, FedEx, and UPS, and we can supply up to 1000000 pieces per month.

Our processing methods include CNC machining, turning, milling, and more. We offer a lead time of 7-15 days and accept various drawing formats such as PDF, DWG, IGS, and STEP. Our materials range from aluminum, steel, brass, and more.

Trust us to provide you with customized computer-aided machining parts that will exceed your expectations. Contact us today to place your order.

Support and Services:

On-site installation and training

24/7 technical support via phone and email

Remote diagnostics and troubleshooting

Regular maintenance and repair services

Upgrades and retrofits

Customized solutions to fit your specific needs

Our experienced technicians and engineers are dedicated to ensuring that your CNC machined parts operate at peak performance levels, maximizing production efficiency and minimizing downtime.
