

## Custom Anodized CNC Machined Components With PDF / DWG Drawings Accepted

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

#### Product Specification

- Drawing Format: PDF, DWG, IGS, STEP, Etc.
- Lead Time: 7-15 Days
- OEM/ODM: Acceptable
- Processing Method: CNC Machining, Turning, Milling, Etc.
- Application: Automotive, Aerospace, Medical, Etc.
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- Material: Aluminum, Steel, Brass, Etc.
- Size: Customized
- Highlight: **PDF CNC Machined Components,  
DWG Drawings CNC Machined Components,  
Custom Anodized CNC Machined Components**

## Product Description

### Product Description:

Our CNC Machined Parts are available with a variety of surface treatments, including anodizing, plating, painting, and more. We use the latest technology and techniques to ensure that your parts are finished to the highest standard. Whether you need a specific color or finish, we can help you achieve the look and feel you desire.

With a lead time of only 7-15 days, our CNC Machined Parts are the perfect choice for those who need precision machined parts quickly. We understand the importance of meeting deadlines and strive to deliver your parts on time, every time.

We use a variety of processing methods to create our CNC Machined Parts, including CNC machining, turning, milling, and more. Our team of experts has years of experience and use the latest technology and techniques to ensure that your parts are produced to the highest quality.

Our CNC Machined Parts are perfect for a wide range of applications, including automotive, aerospace, medical, and more. We pride ourselves on providing high-quality computer-aided machining parts that meet your specific needs and requirements.

At our company, we are committed to providing our customers with the highest level of service and quality. We work closely with our customers to ensure that their needs are met and that their CNC Machined Parts are produced to the highest standard. Contact us today to learn more about our CNC Machined Parts and how we can help you meet your precision machining needs.

### Features:

Product Name: CNC Machined Parts

Lead Time: 7-15 Days

OEM/ODM: Acceptable

MOQ: 1 Piece

Processing Method: CNC Machining, Turning, Milling, Etc.

Application: Automotive, Aerospace, Medical, Etc.

Features:

CNC-manufactured components

Computer-aided manufacturing parts

CNC-manufactured components

### Technical Parameters:

Product Attributes	Details
Product Name	Computerized Numerical Cutting parts
MOQ	1 Piece
Size	Customized
Application	Automotive, Aerospace, Medical, Etc.
Material	Aluminum, Steel, Brass, Etc.
Delivery Method	DHL, FedEx, UPS, Etc.
Processing Method	CNC Machining, Turning, Milling, Etc.
Packaging	Standard Export Carton Or Customized
Drawing Format	PDF, DWG, IGS, STEP, Etc.
Lead Time	7-15 Days
OEM/ODM	Acceptable
Product Description	Computer-controlled machining parts, CNC-machined components

### Applications:

The CNC-machined parts are suitable for various application occasions and scenarios. They are commonly used in industries such as aerospace, automotive, medical, and consumer electronics. For instance, in the aerospace industry, CNC-machined components are used to create high-precision parts for aircraft engines, structural components, landing gear, and control systems.

In the automotive industry, CNC-machined parts are used to produce engine components, transmission parts, suspension systems, and braking systems. In the medical industry, CNC-machined parts are used to create surgical instruments, implants, and other medical devices that require high precision and accuracy. In the consumer electronics industry, CNC-machined parts are used to create smartphone components, computer parts, and other electronic devices.

Our CNC-machined parts are delivered with EPE foam, anti-rust paper, stretch film, and plastic bags to ensure safe packaging. We offer delivery through DHL, FedEx, UPS, and other trusted logistics companies. Our lead time is 7-15 days, and we have a supply ability of 1000000 pieces per month.

We accept payment terms that are convenient for our customers, and our packaging can be customized to meet specific requirements. Our drawing formats include PDF, DWG, IGS, STEP, and other standard formats. We offer a minimum order quantity of 1 piece to meet

the varying needs of our customers.

**Customization:**

**Packing and Shipping:**

Product Packaging:

All CNC machined parts will be carefully packed in secure boxes to prevent damage during transit.

Each box will be clearly labeled with the product name, quantity, and any handling instructions.

We use eco-friendly packaging materials whenever possible to minimize our environmental impact.

Shipping:

We offer worldwide shipping for all CNC machined parts.

Orders will be processed within 1-2 business days and shipped via your selected shipping method.

Shipping costs will be calculated at checkout based on the weight and destination of your order.

We offer expedited shipping options for customers who need their parts quickly.
