

Precision CNC Machined Brass Parts with $\pm 0.01\text{mm}$ Tolerance and Customizable Weight

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc404

Product Specification

- Processing_method: CNC Machining
- Package: Standard Export Package
- Delivery_time: 7-15 Days
- Material: Brass
- Application: Electronic Components
- Color: Customized
- Payment_term: T/T, PayPal, Western Union
- Weight: Customized
- Highlight: **Customizable Weight CNC Brass Parts,
 $\pm 0.01\text{mm}$ Tolerance CNC Brass Parts,
Precision CNC Machined Brass Parts**

Product Description:

Our CNC-manufactured copper components are crafted from premium brass, a material celebrated for its superior attributes. These brass fittings, produced with meticulous precision, adhere to the most stringent quality benchmarks. The utilization of advanced CNC machining processes guarantees exceptional accuracy, yielding components that align seamlessly and perform as intended. The components undergo a polishing surface treatment, which imparts a sleek, lustrous finish. This not only enhances their aesthetic appeal but also bolsters their corrosion resistance, rendering them ideal for deployment in challenging environments. The polished surface also facilitates ease of cleaning and maintenance, a crucial factor for electronic components that require optimal upkeep. In terms of production capacity, we can deliver these precision brass pieces in substantial volumes. With a monthly output of 10,000 pieces, we assure our customers of a reliable supply chain, enabling them to maintain production timelines and satisfy customer demand. The color of these components can be tailored to specific requirements. This customization allows clients to select a hue that aligns with their branding or complements other components. It also aids in the identification of parts, which is vital for stringent quality control measures. Regarding payment options, we offer a variety of methods to accommodate our customers' preferences. Whether through Telegraphic Transfer (T/T), PayPal, or Western Union, clients can select the most convenient payment avenue, streamlining the procurement process and ensuring a hassle-free acquisition of the necessary parts.

Features:

Product Name: CNC Brass Parts

Weight: Customized

Color: Customized

Port: Shenzhen

Supply Ability: 10,000 Pieces/Month

Application: Electronic Components

Features:

CNC fabricated copper items

CNC produced copper accessories

CNC fabricated copper items

Technical Parameters:

Payment Term	T/T, PayPal, Western Union
Port	Shenzhen
Material	Brass
Tolerance	±0.01mm
Processing Method	CNC Machining
Weight	Customized
Application	Electronic Components
Color	Customized
Package	Standard Export Package
Delivery Time	7-15 Days

Our company specializes in the production of CNC custom brass elements, CNC turned brass objects, CNC made brass fittings.

Applications:

Our CNC precision brass pieces are produced with the utmost care and attention to detail. We use only the finest materials, sourced from our Guangdong Huizhou base. The brass material is perfect for electronic components, providing excellent conductivity and durability. Our CNC brass parts are polished to a high standard, providing a sleek and professional finish. This makes them perfect for use in high-end electronic devices and equipment. Our products are also designed with portability in mind, making them perfect for export from our Shenzhen port.

Our CNC produced copper accessories are ideal for a wide range of applications, including circuit boards, electronic switches, and other electronic components. The precision engineering of our products ensures that they are a perfect fit for any application, providing reliable performance and long-lasting durability.

When you choose ywy for your CNC brass parts needs, you can be confident that you are getting the very best in quality and performance. All of our products are packaged using standard export packaging, ensuring that they arrive at your destination in perfect condition.

So why wait? Order your CNC machined copper parts from ywy today and experience the difference that quality and precision engineering can make!

Customization:

Support and Services:

Our CNC Brass Parts are designed and manufactured to meet the highest standards of quality and precision. We offer a range of technical support and services to ensure that our customers are fully satisfied with their purchase:

- Expert consultation on product selection and customization
- Installation and set-up guidance
- Training for operators and maintenance personnel
- Regular maintenance and repair services
- Fast and responsive technical support
- Replacement parts and components

Our team of experienced technicians and engineers are dedicated to providing excellent customer service and support. We are committed to helping our customers optimize the performance of their CNC Brass Parts and achieve their production goals.

Packing and Shipping:

Product Packaging: The CNC Brass Parts will be securely packed in a foam-lined box to prevent any damage during transit.

Shipping: Shipping will be done through a reputable courier service and the delivery time will depend on the destination. Customers will receive a tracking number to monitor the shipment of their order.

FAQ:

Q: What is the brand name of this product?
A: The brand name is ywy.

Q: What is the model number of this product?
A: The model number is cnc404.

Q: Where is this product manufactured?
A: This product is manufactured in guangdonghuizhou.

Q: What materials are used to make this product?
A: This product is made of brass.

Q: Can this product be customized?
A: Yes, we offer customization services for this product. Please contact us for more information.
