

±0.01mm Tolerance Custom CNC Machining Parts for Automotive Industry Requirements

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc202
- Minimum Order Quantity: 1
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging
- Delivery Time: 10-15
- Supply Ability: long-term

Product Specification

- Processing Method: CNC Turning Milling
- Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
- Advantage: High Precision, Fast Delivery, Etc.
- MOQ: 1 Piece
- Application: Automotive, Aerospace, Etc.
- Tolerance: ±0.01mm
- Lead Time: 7-15 Days
- Product Size: Customized

Product Description

Product Description:

Are you in need of high-quality custom CNC turning parts for your automotive or aerospace projects? Look no further than our CNC Turning Milling Parts, designed to meet your specific requirements with precision and efficiency.

Our CNC turning milling parts are ideal for a variety of applications, including automotive, aerospace, and more. Whether you need CNC machining metal parts for a new prototype or replacement components, we can deliver the perfect solution tailored to your needs.

With a minimum order quantity of just 1 piece, we make it easy for you to get the exact quantity you need without any unnecessary extras. Our quick lead time of 7-15 days ensures that you receive your CNC turning machining parts promptly, keeping your projects on track and on schedule.

When it comes to surface treatment options, we offer a range of choices to suit your specific requirements. Whether you prefer polishing for a smooth finish, anodizing for enhanced durability, zinc plating for corrosion resistance, or any other surface treatment, we have you covered.

Our CNC turning milling parts are crafted from high-quality materials such as stainless steel, aluminum, brass, and more. These materials are chosen for their durability, strength, and versatility, ensuring that your CNC turning parts perform optimally in any application.

When you choose our CNC Turning Milling Parts, you can trust that you are getting top-of-the-line quality and precision. Our team of skilled professionals is dedicated to delivering exceptional CNC machining metal parts that meet your exact specifications and exceed your expectations.

Whether you need custom CNC turning parts for a small project or a large-scale production run, we have the capabilities and expertise to deliver superior results every time. Trust us to provide you with reliable, high-performance CNC turning machining parts that will help you achieve your project goals with ease.

Features:

Product Name: CNC Turning Milling Parts

OEM/ODM: Accept

Application: Automotive, Aerospace, Etc.

Processing Method: CNC Turning Milling

Product Size: Customized

Shipping: Express, Air, Sea

Technical Parameters:

Technical Parameter	Description
Product Size	Customized
Advantage	High Precision, Fast Delivery, Etc.
Material	Stainless Steel, Aluminum, Brass, Etc.
Surface Treatment	Polishing, Anodizing, Zinc Plating, Etc.
Processing Method	CNC Turning Milling
Package	Carton, Wooden Case, Etc.
Tolerance	±0.01mm
Application	Automotive, Aerospace, Etc.
Shipping	Express, Air, Sea
Drawing Format	PDF, IGS, STP, DWG, Etc.

Applications:

Product Application Occasions and Scenarios for the ywy CNC Turning Milling Parts (Model: cnc202) from guangdonghuizhou: The ywy CNC Turning Milling Parts are versatile components suitable for a wide range of applications and industries. Here are some common scenarios where these parts can be used:

1. Industrial Machinery: The CNC Turning Machining Parts are essential components in industrial machinery manufacturing. They can be used in the production of pumps, valves, compressors, and other mechanical equipment.

2. Automotive Industry: Custom CNC Turning Parts play a critical role in the automotive industry. These parts are used in the manufacturing of engines, transmissions, steering systems, and other automotive components.

3. Aerospace Applications: The precision and reliability of CNC Turning Machining Parts make them ideal for aerospace applications. These parts are commonly used in aircraft engines, landing gear systems, and avionics equipment.

4. Electronics Sector: With surface treatments like Polishing, Anodizing, and Zinc Plating available, the CNC Turning Milling Parts are perfect for electronic devices. These parts can be used in the production of connectors, housings, and other electronic components.

5. Medical Equipment: OEM/ODM orders are accepted for medical equipment manufacturers requiring high-quality components. The CNC Turning Machining Parts can be used in the production of medical devices, surgical instruments, and diagnostic equipment.

With a minimum order quantity of 1 and a price range of 0.68-6.68, the ywy CNC Turning Milling Parts provide cost-effective solutions for various industries. The parts are carefully packaged in bubble paper boxes and can be delivered in 10-15 days via Express, Air, or Sea.

shipping. The supply ability is long-term, ensuring a consistent availability of these quality components. Customers can provide their drawings in formats like PDF, IGS, STP, DWG for custom orders. The parts can be packaged in cartons, wooden cases, or other suitable packaging options based on the shipping method chosen.

Customization:

Product Customization Services for Custom CNC Turning Parts, CNC Turning And Milling Parts, and Custom CNC Machining Parts:
Brand Name: ywy
Model Number: cnc202
Place of Origin: guangdonghuizhou
Minimum Order Quantity: 1
Price: 0.68-6.68
Packaging Details: Bubble paper box packaging
Delivery Time: 10-15
Supply Ability: long-term
Drawing Format: PDF, IGS, STP, DWG, Etc.
Shipping: Express, Air, Sea
OEM/ODM: Accept
Processing Method: CNC Turning Milling
Lead Time: 7-15 Days

Support and Services:

Our Product Technical Support and Services for CNC Turning Milling Parts include:
- Comprehensive training and onboarding for operators
- Troubleshooting guidance for common issues
- Regular maintenance and inspection schedules
- Remote assistance for quick problem resolution
- Software updates and enhancements
- Quality assurance processes to ensure precision and accuracy

Packing and Shipping:

Product Packaging:
Our CNC Turning Milling Parts are carefully packaged to ensure their safe delivery to you. Each part is wrapped in protective material to prevent any scratches or damage during transit. The parts are then placed in sturdy boxes, securely sealed to prevent any movement during shipping.
Shipping:
Once your order is confirmed, we will process it promptly. We offer various shipping options to suit your needs, including standard and expedited delivery. Our trusted shipping partners ensure timely and secure delivery of your CNC Turning Milling Parts to your designated address.

FAQ:

Q: What is the Brand Name of the CNC Turning Milling Parts?
A: The Brand Name is ywy.
Q: What is the Model Number of the CNC Turning Milling Parts?
A: The Model Number is cnc202.
Q: Where is the Place of Origin of the CNC Turning Milling Parts?
A: The Place of Origin is guangdonghuizhou.
Q: What is the Minimum Order Quantity for the CNC Turning Milling Parts?
A: The Minimum Order Quantity is 1.
Q: What are the Packaging Details for the CNC Turning Milling Parts?
A: The Packaging Details include Bubble paper box packaging.
