

Industrial Equipment Essential CNC Precision Stainless Steel Fittings with Tolerance of $\pm 0.01\text{mm}$ and Standards

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc303

Product Specification

- Tolerance: $\pm 0.01\text{mm}$
- Application: Industrial Equipment
- Shipping: By Sea/Air/Express
- OEM/ODM: Acceptable
- Surface Treatment: Polishing
- Lead Time: 7-15 Days
- Processing Method: CNC Machining
- Package: Carton/Wooden Box
- Highlight: **Essential CNC stainless steel fittings,
precision stainless steel fittings,
 $\pm 0.01\text{mm}$ stainless steel fittings**

Product Description

Product Description:

CNC Stainless Steel Parts

The CNC Stainless Steel Parts are high-quality precision components manufactured using CNC machining technology. They are designed for various industrial applications that require durable and reliable stainless steel parts.

Product Attributes:

MOQ: 1 Piece

Drawing Format: PDF/DWG/IGS/STP

Lead Time: 7-15 Days

Processing Method: CNC Machining

Tolerance: $\pm 0.01\text{mm}$

Key Features:

The CNC stainless steel precision turned parts are crafted with utmost precision to meet tight tolerance requirements. They are ideal for applications that demand high accuracy and performance.

These CNC stainless steel fabrications are manufactured using advanced CNC machining techniques, ensuring consistent quality and dimensional accuracy.

The CNC stainless steel turned components are designed to withstand harsh environments and provide long-lasting performance in industrial settings.

Applications:

The CNC Stainless Steel Parts are suitable for a wide range of industries, including aerospace, automotive, electronics, and more. They can be used in equipment manufacturing, machinery assembly, and precision engineering applications.

Quality Assurance:

Each CNC Stainless Steel Part undergoes rigorous quality control checks to ensure compliance with the specified tolerances and dimensions. The use of high-quality stainless steel materials guarantees excellent corrosion resistance and durability.

Ordering Information:

To place an order for CNC Stainless Steel Parts, please provide the required specifications in PDF/DWG/IGS/STP format. The MOQ is 1 piece, and the lead time for production is 7-15 days. Our skilled technicians will utilize CNC machining technology to produce precision parts with a tolerance of $\pm 0.01\text{mm}$.

Invest in CNC Stainless Steel Parts for your industrial applications and experience the reliability and performance of these high-quality precision components.

Features:

Product Name: CNC Stainless Steel Parts

Application: Industrial Equipment

Surface Treatment: Polishing

Size: Customized

Inspection: 100% Inspection

Material: Stainless Steel

Technical Parameters:

OEM/ODM	Acceptable
Lead Time	7-15 Days
Inspection	100% Inspection
Package	Carton/Wooden Box
Application	Industrial Equipment
Material	Stainless Steel
Drawing Format	PDF/DWG/IGS/STP
Tolerance	$\pm 0.01\text{mm}$
Size	Customized
MOQ	1 Piece

Applications:

Stainless steel CNC turned parts, CNC stainless steel fabrications, and CNC machined stainless steel components produced by the ywy brand's cnc303 model are versatile products suitable for a wide range of application occasions and scenarios.

Thanks to their high-quality material - stainless steel, these parts are known for their durability, corrosion resistance, and strength, making them ideal for various industries and sectors.

One common application scenario for these CNC stainless steel parts is in the automotive industry. These parts can be used in the manufacturing of engine components, exhaust systems, and other critical parts that require precision and reliability.

Moreover, in the aerospace industry, these CNC machined stainless steel components play a crucial role in the production of aircraft

parts, such as landing gear components, structural elements, and instrumentation parts.

Another important application occasion for these stainless steel parts is in the electronics industry. The precision and tolerance level of these parts make them perfect for use in electronic devices, communication equipment, and semiconductor manufacturing.

Furthermore, the customized size and polishing surface treatment of these CNC stainless steel parts make them suitable for applications in the medical industry. They can be used in the production of surgical instruments, medical devices, and equipment where hygiene and precision are paramount.

Thanks to the ywy brand's acceptance of OEM/ODM orders, these stainless steel parts can be customized to meet specific requirements for different application scenarios in industries such as robotics, renewable energy, and industrial machinery.

In conclusion, the CNC stainless steel parts from ywy offer versatility, precision, and durability, making them the perfect choice for a wide range of application occasions and scenarios across various industries.

Customization:

Product Customization Services for ywy CNC Stainless Steel Parts (Model Number: cnc303)

Place of Origin: guangdonghuizhou

Surface Treatment: Polishing

Processing Method: CNC Machining

Inspection: 100% Inspection

Package: Carton/Wooden Box

Size: Customized

Support and Services:

The Product Technical Support and Services for the CNC Stainless Steel Parts include:

- Assistance with product installation and setup
- Troubleshooting guidance for any technical issues
- Recommendations for maintenance and care of the parts
- Updates on product enhancements and new features

Packing and Shipping:

Product Packaging:

Our CNC Stainless Steel Parts are carefully packaged to ensure they arrive in perfect condition. Each part is individually wrapped in protective material and placed in a sturdy cardboard box. The box is then sealed to prevent any damage during transit.

Shipping:

We offer fast and reliable shipping for our CNC Stainless Steel Parts. Orders are processed promptly and shipped using trusted carriers to ensure timely delivery. Customers will receive a tracking number to monitor the progress of their shipment.

FAQ:

Q: What is the brand name of the CNC Stainless Steel Parts?

A: The brand name of the CNC Stainless Steel Parts is ywy.

Q: What is the model number of the CNC Stainless Steel Parts?

A: The model number of the CNC Stainless Steel Parts is cnc303.

Q: Where is the CNC Stainless Steel Parts manufactured?

A: The CNC Stainless Steel Parts is manufactured in Guangdong Huizhou.

Q: Are the CNC Stainless Steel Parts made of high-quality stainless steel?

A: Yes, the CNC Stainless Steel Parts are made of high-quality stainless steel.

Q: Can the CNC Stainless Steel Parts be customized according to specific requirements?

A: Yes, the CNC Stainless Steel Parts can be customized to meet specific requirements.
