Powder Coating Customized Precision CNC Milling Parts with Tolerance ±0.01mm for Industrial

• Place of Origin:

(W)

- Brand Name:
- Model Number:

Product Specification

Application:	Industrial, Automotive, Etc.
Material:	Aluminum, Steel, Stainless Steel, Etc.
Processing Method:	CNC Milling
Precision:	High Precision
Coating:	Powder Coating, Zinc Plating, Etc.
Lead Time:	7-15 Days
• Tolerance:	±0.01mm
• Size:	Customized
Highlight:	Precision CNC Milling Parts,
	Powder Coated CNC Milling Parts,
	Precision CNC Machined Components

Product Description:

Our CNC Milling Parts offer high-quality precision milling parts that are essential for various industries such as industrial and automotive sectors. These precision milling parts are meticulously crafted using computer programmed machining, ensuring accuracy and consistency in every piece.

With a focus on customization, our CNC Milling Parts come in a range of sizes tailored to meet your specific requirements. Whether you need small components or larger parts, we can deliver the right size to fit your project needs. The customization options allow for versatility in applications across different industries.

When it comes to coatings, our CNC Milling Parts can be finished with powder coating, zinc plating, and other coating options based on your preferences. The coatings not only enhance the appearance of the parts but also provide added durability and protection against corrosion, extending the lifespan of the components.

For packaging, we offer various options including carton, wooden case, and more to ensure safe transportation and delivery of the CNC Milling Parts. Each part is carefully packaged to prevent any damage during shipping, giving you peace of mind that your order will arrive in perfect condition.

As a leading provider of CNC Milling Parts, we take pride in our OEM/ODM services that cater to your specific needs and requirements. Whether you have a unique design in mind or need modifications to existing parts, our team of experts is equipped to support you throughout the customization process.

The CNC Milling Parts find extensive applications in industries such as industrial and automotive sectors where precision and reliability are crucial. From intricate components to structural parts, our precision milling parts are designed to meet the demands of these rigorous environments, ensuring top-notch performance and longevity.

Features:

Product Name: CNC Milling Parts

Service: OEM/ODM

Material: Aluminum, Steel, Stainless Steel, Etc.

Application: Industrial, Automotive, Etc.

Surface Finish: Polishing, Anodizing, Plating, Etc.

Coating: Powder Coating, Zinc Plating, Etc.

Technical Parameters:

Material	Aluminum, Steel, Stainless Steel, Etc.
Lead Time	7-15 Days
Equipment	CNC Milling Machine
Packaging	Carton, Wooden Case, Etc.
Coating	Powder Coating, Zinc Plating, Etc.
Tolerance	±0.01mm
Precision	High Precision
Size	Customized
Processing Method	CNC Milling
Application	Industrial, Automotive, Etc.

Applications:

Computer Numerical Control Machining Parts from the brand ywy, model number cnc101, are versatile components suitable for a range of applications and scenarios. These CNC Milling Parts, originating from guangdonghuizhou, offer high precision and quality due to their manufacturing process using CNC Milling Machines.

One of the key attributes of these parts is the variety of Surface Finishes available, including Polishing, Anodizing, and Plating. This makes them adaptable to different environments and aesthetic requirements. Whether it's for industrial machinery, automotive components, or electronic devices, the ywy CNC101 parts can meet various design specifications.

With a Lead Time of 7-15 days, these CNC Milling Parts are ideal for projects that require quick turnaround without compromising on quality. The efficient Processing Method of CNC Milling ensures consistent results and tight tolerances, making them suitable for applications where precision is paramount.

Furthermore, the option for Coatings such as Powder Coating and Zinc Plating enhances the durability and corrosion resistance of the parts, extending their lifespan in demanding conditions. This makes them suitable for outdoor equipment, marine applications, and other environments where protection against the elements is crucial.

Whether it's for prototyping new products, replacing worn-out components, or creating custom machinery, the ywy CNC101 parts offer reliability and performance. The versatility of these Computer Numerical Control Milling Parts makes them a valuable choice for various industries and projects.

Customization:

Product Customization Services for the CNC Milling Parts Brand Name: ywy Model Number: cnc101 Place of Origin: guangdonghuizhou Tolerance: ±0.01mm Precision: High Precision Application: Industrial, Automotive, Etc. Surface Finish: Polishing, Anodizing, Plating, Etc. Service: OEM/ODM

Packing and Shipping:

Product Packaging:

Each CNC milling part is carefully wrapped and protected with foam padding to prevent any damage during transit. The parts are then placed in a sturdy cardboard box, ensuring they arrive safely at their destination. Shipping Information:

We offer fast and reliable shipping services for our CNC milling parts. Orders are processed and dispatched within 1-2 business days. Customers can choose from various shipping options to suit their needs, including standard shipping, expedited shipping, and international shipping.

FAQ:

Q: What is the brand name of the CNC milling parts?

- A: The brand name is ywy.
- Q: What is the model number of the CNC milling parts?
- A: The model number is cnc101.
- Q: Where is the place of origin for the CNC milling parts?
- A: The place of origin is Guangdong Huizhou.
- Q: Are these CNC milling parts suitable for industrial applications?
- A: Yes, these parts are designed for industrial use.
- Q: Can customizations be made to the CNC milling parts?
- A: Yes, we offer customization options to meet specific requirements.
