

## Polishing CNC Turning Milling Parts for Automotive OEM/ODM Acceptance and Customized Product Size

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc202
- Minimum Order Quantity: 1
- Price: 0.68-6.68
- Packaging Details: Bubble paper box packaging
- Delivery Time: 10-15
- Supply Ability: long-term

#### Product Specification

- Lead Time: 7-15 Days
- Application: Automotive, Aerospace, Etc.
- Shipping: Express, Air, Sea
- Surface Treatment: Polishing, Anodizing, Zinc Plating, Etc.
- Product Size: Customized
- Drawing Format: PDF, IGS, STP, DWG, Etc.
- Material: Stainless Steel, Aluminum, Brass, Etc.
- MOQ: 1 Piece
- Highlight: **CNC automotive parts,  
Customized milling components,  
Polished turning parts**

Product Description:

CNC Turning Milling Parts, also known as CNC Turn Mill Parts or CNC Turning And Milling Parts, are a type of precision components that are manufactured using advanced machining processes. These parts are widely used in various industries such as aerospace, automotive, electronics, and more, due to their high accuracy and quality.

The Product Size of CNC Turning Milling Parts is customized according to the specific requirements of the customer. This customization ensures that the parts fit perfectly within the intended application, providing optimal performance and functionality.

These parts are typically made from a variety of materials including Stainless Steel, Aluminum, Brass, and other metal alloys. The choice of material depends on the specific application requirements such as strength, durability, and corrosion resistance.

One of the key features of CNC Turning Milling Parts is their high precision with a Tolerance level of  $\pm 0.01\text{mm}$ . This tight tolerance ensures that the parts meet the exact specifications and requirements of the customer, leading to consistent and reliable performance.

In addition to precision machining, CNC Turning Milling Parts are also subjected to various Surface Treatments to enhance their appearance and properties. Common surface treatments include Polishing, Anodizing, Zinc Plating, and more, which provide corrosion resistance, improved aesthetics, and increased durability.

The Processing Method used for manufacturing CNC Turning Milling Parts is CNC Turning Milling, which is a versatile and efficient machining process. This method involves the use of computer-controlled precision machining tools to accurately shape and finish the parts, ensuring high quality and repeatability.

Overall, CNC Turning Milling Parts are essential components that play a crucial role in the functionality and performance of various products and systems. With their customized size, choice of materials, tight tolerance, surface treatments, and advanced processing methods, these parts meet the highest standards of quality and precision required in modern manufacturing.

Features:

Product Name: CNC Turning Milling Parts  
Package: Carton, Wooden Case, Etc.  
Drawing Format: PDF, IGS, STP, DWG, Etc.  
OEM/ODM: Accept  
Shipping: Express, Air, Sea  
Lead Time: 7-15 Days

Technical Parameters:

Lead Time	7-15 Days
Package	Carton, Wooden Case, Etc.
Product Size	Customized
Material	Stainless Steel, Aluminum, Brass, Etc.
OEM/ODM	Accept
Processing Method	CNC Turning Milling
Tolerance	$\pm 0.01\text{mm}$
Application	Automotive, Aerospace, Etc.
Shipping	Express, Air, Sea
Drawing Format	PDF, IGS, STP, DWG, Etc.

Applications:

When it comes to CNC machining metal parts, the ywy CNC Turning Milling Parts (Model: cnc202) from guangdonghuizhou is a top choice for various application occasions and scenarios. With a minimum order quantity of 1 piece and a price range of 0.68-6.68, this product offers great flexibility for both small-scale projects and larger productions.

The ywy CNC Turning Milling Parts are perfect for industries requiring precise components, such as aerospace, automotive, electronics, and more. The product's customized size and tolerance of  $\pm 0.01\text{mm}$  make it ideal for applications where accuracy is crucial.

Whether you need CNC machining metal parts for prototyping, custom tooling, or production runs, the ywy CNC Turning Milling Parts deliver reliable performance. The surface treatment options, including polishing, anodizing, zinc plating, and more, allow for customization to suit specific requirements.

With bubble paper box packaging and a delivery time of 10-15 days, the ywy CNC Turning Milling Parts ensure safe transportation and timely arrival. The long-term supply ability of this product guarantees continuity for ongoing projects.

From small-scale hobbyist projects to industrial manufacturing, the ywy CNC Turning Milling Parts cater to a wide range of needs. The lead time of 7-15 days ensures quick turnaround, making it suitable for time-sensitive projects.

Overall, the ywy CNC Turning Milling Parts are versatile, reliable, and cost-effective solutions for CNC machining metal parts. With high-quality manufacturing standards and customizable features, this product meets the demands of various industries and applications.

## Customization:

Product Customization Services for Custom CNC Turning Milling Parts:

**Brand Name:** ywy

**Model Number:** cnc202

**Place of Origin:** guangdonghuizhou

**Minimum Order Quantity:** 1

**Price:** 0.68-6.68

**Packaging Details:** Bubble paper box packaging

**Delivery Time:** 10-15

**Supply Ability:** long-term

**Package:** Carton, Wooden Case, Etc.

**Drawing Format:** PDF, IGS, STP, DWG, Etc.

**Tolerance:**  $\pm 0.01\text{mm}$

**OEM/ODM:** Accept

**Application:** Automotive, Aerospace, Etc.

## Support and Services:

Our CNC Turning Milling Parts product comes with comprehensive Product Technical Support and Services to ensure optimal performance and customer satisfaction. Our team of experts is available to provide assistance with installation, troubleshooting, and maintenance of the product. Additionally, we offer training programs to help customers maximize the capabilities of the CNC Turning Milling Parts. Our goal is to deliver top-notch support and services to meet your specific needs and requirements.

## Packing and Shipping:

### Product Packaging:

Our CNC turning milling parts are carefully packaged to ensure they arrive in excellent condition. Each part is securely wrapped and placed in a protective box to prevent any damage during transit.

### Shipping:

We offer fast and reliable shipping options for our CNC turning milling parts. Orders are processed promptly and shipped out within 1-2 business days. Depending on your location, you can choose from standard or expedited shipping methods to receive your parts in a timely manner.

## FAQ:

**Q: What is the Brand Name of the CNC Turning Milling Parts?**

**A: The Brand Name is ywy.**

**Q: What is the Model Number of the CNC Turning Milling Parts?**

**A: The Model Number is cnc202.**

**Q: Where is the Place of Origin for the CNC Turning Milling Parts?**

**A: The Place of Origin is guangdonghuizhou.**

**Q: What is the Minimum Order Quantity for the CNC Turning Milling Parts?**

**A: The Minimum Order Quantity is 1.**

**Q: What are the Packaging Details for the CNC Turning Milling Parts?**

**A: The Packaging Details include Bubble paper box packaging.**

**Q: What is the Delivery Time for the CNC Turning Milling Parts?**

**A: The Delivery Time is 10-15 days.**

**Q: What is the Price range for the CNC Turning Milling Parts?**

**A: The Price range is between \$0.68 and \$6.68.**

**Q: What is the Supply Ability for the CNC Turning Milling Parts?**

**A: The Supply Ability is long-term.**
