

Custom L-Shaped Steel Sheet Metal Stamping Parts with ISO9001 Certification in Customized Sizes and Colors

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Cnc Machining
- Model Number: OEM
- Minimum Order Quantity: 1

Product Specification

- Material: Steel
- MOQ: 1000pcs
- Surface Treatment: Painting, Powder Coating, Plating, Polishing
- Thickness Range: 1/32 Inch To 1 Inch
- Tolerance: +/-0.2mm
- Processing Methods: Laser Cutting, Precision Stamping, Bending, CNC Punching, Threading, Riveting, Drilling, Welding
- Surface Finishes: Brushing, Polishing, Anodizing, Powder Coating, Plating, Silkscreen Printing, Sandblast
- Logo Methods: Silk Print, Laser Marking
- Drawing Formats: DWG, DXF, STEP, IGS, 3DS, STL, SKP, AI, PDF, JPG, Draft
- Sample Lead Time: 1-3 Workdays (no Surface Treatment), 3-5 Workdays (with Surface Treatment)
- Package Options: Bubble Bag, Carton, Wooden Box

Product Description

Custom L-Shaped Steel Furniture Hardware Metal Stamping Parts for Sheet Metal Fabrication Assembly

Sheet Metal Parts and Assembly

If your needs are for sheet metal fabrication, Yuanwenyu is your right choice. We make parts and complete assemblies from all metals from 1/32 inch to 1 inch in thickness. Everything from electronic enclosures to racks and chassis to large structural members can be fabricated promptly to your drawings or specifications.

Through the use of our CNC Plasma cutting table, even the most intricate shapes and cutouts are no problem. Parts can be spot welded into full assemblies and painted, plated or anodized as required.

Manufacturing Technique

Our Advantages

We promise: All parts have no sharp edges. All dimensions are controlled according to your drawings. Every product is fully inspected and carefully packed to prevent damage and rust in transit.

The craftsmanship of all parts we machine is controlled rigorously. Every product has its own process card and process chart.

Our quality inspection procedure is strict with self-inspection during production, flow inspectors and professional inspectors.

Each size of product is tested one by one after completing production with quality report provided.

We are the entity factory, not a trading company. Price reflects actual product quality. Quality is more controllable than with trading companies.

We have many years of export experience to the US, Europe, Japan and other countries and regions.

Our team is more professional with reasonable prices and better quality control than trade companies. Our language ability is diversified.

Buyer Reviews

Packaging & Transportation

FAQ

Q1: How long can I get the sample?

3-5 days, 10-15 days for bulk orders. Depends on your specific items. We can expedite for you.

Q2: How to control product quality?

First full size inspection → Mass production → Check process (3 hours sampling) → 100% Shipping random checks. We have professional QC team to control quality during production and inspect goods before shipping.

Q3: What kinds of information you need for quote?

Please provide the product drawing in PDF, and it will be better if you can provide in DWG or STEP.

Q4: Is OEM/ODM or customer's logo printed available?

Yes, OEM/ODM and customer's logo are welcomed.

Q5: What's your payment terms?

Regularly 30%-50% deposit and 50%-70% balance by T/T, Western Union, Paypal. Other payment terms can be discussed based on our cooperation.

Q6: If we don't have shipping forwarder in China, would you do this for us?

We can offer you best shipping line to ensure you get the goods timely at best price.

Q7: I never come to China before, can you be my guide in China?

We are happy to provide one-stop service, such as booking ticket, pick up at airport, booking hotel, accompany visiting market or factory.
